PVMARS's 3MWh energy storage system (ESS) + 1.5MW solar energy is an off-grid microgrid solution. Solar panels themselves cannot store a lot of electricity,

Kosovo* could install 250 MW of solar capacities for self consumption, both in the prosumer and the behind-the-meter category, which will bring

We offer a selection of customizable 15kW solar systems ideal for larger homes or commercial use. You can choose between grid-tie with or without battery or off

The system pairs 400 kWh of Li-ion battery storage housed in shipping containers with an "Airborne Wind Energy System" in the shape of a hybrid inflatable/fiber-glass kite connected to a ground

To cover the wide range of requirements, we make a a?| The Kosovo Independent Energy Storage Power Station uses lithium-ion batteries and AI-driven management systems to store excess

The solar container seamlessly switches between grid-connected and off-grid modes in under 10 ms, ensuring reliable power at all times. Pre-configured hybrid controls and low maintenance
